

e-CaIPSuL

e-CaIPSuL project, supported by the LabEx L-IPSL project, offers short pedagogical videos, in the form of “SP0C: Small Private Online Courses”. These videos are dedicated to undergraduate students who would need to fulfill master’s degree prerequisites and need some basics on climate and environmental sciences.

e-CaIPSuL videos are organized in four themes that are highly associated to the IPSL research topics:

- Climate
- Atmosphere,
- Oceanography
- Palaeoclimate

e-CaIPSuL videos are available online on
IPSL-Climate Graduate School channel on CanalU
